-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. In the information disclosure statement filed February 18, 2004, no copies of the following references from Taiwan were included: ROC 51781, ROC 394679 and ROC 328711.

### ***Drawings***

2. The drawings are objected to because the two drawings for Fig. 24B should each be labeled separately. Also, it is unclear what figure is represented by the label "24C-24C". Applicant is respectfully requested to also ensure consistency with respect to the "Brief Description of the Drawings" section of the specification.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 39, 41 and 43-45 are rejected under 35 U.S.C. 102(b) as being anticipated by Wihksne '194.

The patent to Wihksne '194 teaches with respect to claims 1, 43, 44 and 45 a floor mat assembly comprising a floor mat perimeter merely defined by the outer peripheral edges of support 11 (Fig. 1), a non-tacky exposed top surface defined by top portions of ridges 18 (Figs. 1 and 2) to clean at least a portion of a sole of a shoe coming in contact therewith, said non-tacky exposed top surface configured to be at least partly bordered by the perimeter wherein said perimeter has a different fabrication from said non-tacky exposed top surface, and a tacky disposable and cleanable insert at mat 12 having a tacky exposed top surface and configured to be at least partially bordered by said non-tacky exposed top surface.

As for claim 39, clearly a user could assemble the entire device.

As for claim 41, the non-tacky exposed top surface is deemed to dissipate water or fluids due to it's ridged design as shown by Fig. 2.

### ***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 40 is rejected under 35 U.S.C. 103(a) as being unpatentable over Wihksne '194.

With respect to claim 40, it is the Examiner's position that one skilled in the art would find it obvious to make at least the top surface of the tacky surface capable of

transmitting water therethrough for absorption purposes since fluids from dirty shoes or sneakers are readily released from soles upon inclement weather.

***Allowable Subject Matter***

7. Claim 42 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

8. Applicant's arguments with respect to claims 1 and 39-45 have been considered but are moot in view of the new grounds of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1744

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
